Nelson sprinkler heads commonly used

Get Free 5500 Pro 6000 Series Gear Drive Sprinklers

in home landscapes include the Pro 5500 and Pro 6000 lines, and they lie flush with the ground when not in use and pop up when the sprinkler system is activated. Because adjustments have to be performed while the unit is not activated, propping up each sprinkler head while you work on it is necessary.

The 6000 Pro series rotors are
constructed of high impact plastic and

Get Free 5500 Pro 6000 Series Gear Drive Sprinklers

all internal metal parts are made of stainless steel. The built in slip clutch protects the gears and motor from damage when adjusting for a part circle. If the rotor is manually moved out of position it will automatically reset to the defined pattern.
