he 6R80 has been around since 2009 and, while similar to the 6R60, there are some differences. Let's start by defining some terms: the term solenoid body refers to the valve body. This transmission has a valve body, a hard-wired harness, and seven solenoids. The tag on the side of the transmission says "Sol Strategy and Sol Body ID."

Ford has made some changes to the '15-later 6R80 valve bodies that you'll want to note to prevent any interchange and drivability problems. Following are some of the key identifiers and details on the one valve lineup change to help keep you building successfully. Valve Body Casting Identification

Spotting the Changes to Ford 6R80 '15-Later Valve Bodies ...

In this issue of GEARS, we're going to delve into the Ford 6R80 transmission and discuss some of the more recent and major changes that have taken place. Ford began using the ZF6HP26 transmission in the 2005 Ford Expedition and Lincoln Navigator with the 5.4L engine. In subsequent years, this transmission, known as the 6R60/75/80, [...]
